

Atascocita South C.I.A.
Policy for Approval of Roofing Shingles
Adopted January 25, 1994
Revised July 13, 1998

SHINGLE REQUIREMENTS FOR RE-ROOFING

In order to gain approval by the Association's Architectural Control Committee, the proposed shingles must carry a documented 25-year warranty; they must not be "3-tab" construction; and they must be wood-tone in color, or a color which is ruled by the Architectural Control Committee to be aesthetically harmonious with the community, with the color white to be specifically disallowed.
